from a band of broken-down politicians, and was infroduced in the Senate by Mr. Trumbull. It was a more trick of politicians, and Mr. Trumbull, who had apostacised from his party, introduced it to try and break down the Republican party. Members had voted for it because they did not want to go hame and say they had voted against reform in the civil service. The President proceeded to earry out the law Congress had made and appointed the commission, and the first that the commission did was to violate a law of Congress giving preference in appointments to soldiers and sailors his life served in the was.

They arranged a peries of questions, and put purase, had been me bomb-proof. He has had a case before the Department. He took a man there who had been wounded in the service, and his standard of emination was 7c; but he had been rejected, and a young man who had remained at college got his piace, while he was sent home to seek us best he send the means of support.

He said that in the Interior Department a clork had soien the questions and sold them out to four men, who answered every question at the examination. Yet these sur men did not pass as high as some did whe did not have the questions and did not nanwer all. Why was thig! It was because they were not the favorites of the examining board, which was made up of dierks on large salaries, who, when they traveled, took a whole apartment on the sleeping car, which was content with a single bounk, and charged it to the Government as traveling expenses. They did this that their mighty brain might expand. [Laughter.]

Mr. BUTLEH moved to suppond the rules, in order to make it order as amendment covering into the Treasury any unexpended balance of appropriation for the civil service rules, but subsequently withdraw it.

Mr. GARFIELD moved that the House go into committee again, and that debate on the pending amendment be limited to fifteen minutes.

COLUMBUR, JUNE II.—The adjutant general has just received a dispatch from Governor Allen, ordered in the call upon the Lytle Grays, of Cincinnati, to be in readiness to proceed to Neiscantille at a moment's notice. The call was issued by the adjutant general at 3 o'clock p.m. A senger of the control of th

L. D. Postoh, one of the operators, demanded of the miners an increase of one hundred ouble inches to the bushel. The miners refused this, but agreed to recode from their basis of \$3 per hundred to \$2.57, which Position accopted.

The miners say they are willing to treat with other operators, but the latter say they will have nothing to do with union miners on any torms. Sixty strikers reached Nelsouville yesterday, in procession, from Carbondale, and four hundred are expected from Straitsville to-night.

APPEAL TO THE NEGROES TO JOIN THE STRIKE.

The president of the Miners' Union, with twenty of thirty persons, approached the lines to-night. He addressed as many negroes as were within bearing, urging them to lay down their arms and join the strikers. This created some commotion, and one descrition occurred. At the same time there was a demonstration at another point, women taking part, but it was not serious. At 8 o'clock but few sympathies with the men were near the works, but a rowd of probably one hundred were collected about half way between there and the village.

The sherif of Athens county is within the lines, but he declines to call on the Executive until there is setual violence. The operators are not in accord with him. They say that there is danger of bloodshed before troops can arrive.

THE SITUATION AT MIDNIGHT.

A dispatch from Nelsonville at midnight says the pickets on duty at the Longstrecht mines were fired on several times to-night, and they returned the firs, without injuring any one.

The Union miners have formed a picket line near the line of the colored forces, and no one is permitted to pass without an sympanation in detail.

SAN FRANCISCO, June II.—The report of the Senate Judiciary Committee, adverse to Sutro & Co., gives great satisfaction here. Many congratulatory dispatches have been received by the agents of mining companies from their representatives and friends in Nevada. The Evening Post says: "This is a great triumph. A more persistent, barefaced attempt at reobery and spoliation never was hatched than Mr. Sutro's great bore, and yet it was near winning. It was carried in the House, and though the Senate had gone back somewhat on the lobby prince, he never doubted, nor few other people, that he would be able to cajole, persuade or bribe a majority into supporting his schumes. Now, with an important committee against him, with all enlightened and upprejudiced members against him, Sutro has no more chance of repressing the flat that has gue out from the Senate than he has of being nominated for Secretary of the Treasury."
